### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-20, and 41-60, drawn to a computer-implemented method of indexing, monetizing, and trading risk factor population results, **derived from constituent units of account** residing within a financial exposure, classified in class 705, subclass 37.
  - II. Claims 21-40, and 61-80, drawn to a computer-implemented method of indexing, monetizing, and trading risk factor population results, **derived from individual cashflows** residing within a financial exposure, classified in class 705, subclass 37.
2. The inventions are distinct, each from the other because of the following reasons:
  - Inventions I and II are related as sub combinations disclosed as usable together in a single combination. The sub combinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I relates to a computer-implemented method of indexing, monetizing, and trading risk factor population results, **derived from constituent units of account** residing within a financial exposure, whereas invention II relates to a computer-implemented method of indexing, monetizing, and trading risk factor population results, **derived from individual cashflows** residing within a financial exposure.

Art Unit: 3692

Hence invention I has a different utility and scope than invention II since the individual cashflows stated in invention II is so broad and can encompass different accounts. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II. Restriction for examination purposes as indicated is proper.

3. Applicants are advised that reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to OJO O. OYEBISI whose telephone number is (571) 272-8298. The examiner can normally be reached on 8:30A.M-5:30P.M.
